Vietnam VEC Limited Company

Introduction

The best charcoal in Vietnam

The demand of energy is increasing fossil energy is decreasing

“New energy from natural mother”

Vietnam VEC Limited Company understand this and are trying our best to satisfy customer’s demand.

The needs of buying and selling of charcoal is bigger and bigger in the world. Vietnam, Laos, Cambodia are the countries where they can supply the big volume of charcoal to world market. But at this time, most of charcoal providers are households and they have not capability and experience to associate with the others in finding customers and exporting their products.

That is the reason why Vietnam VEC Limited Company was founded in April 2012.In some first months, VEC had only 5 people and very small relationship in Charcoal market. We supplied 200-300 tons of charcoal per month. This quantity is very small in comparison with the needs of not only domestic market but also foreign market. But now, we are developing our supply and distribution network. We purchase charcoal from lots of Vietnamese, providers and export to other countries such as Korea, Japan, China, etc. Types of charcoal that we can supply are hardwood charcoal, white charcoal, sawdust charcoal, coconut charcoal, bamboo charcoal.

All the products are carefully inspected to ensure that they can meet the demand of customers. By understanding our customers’ needs, we believe that we are able to provide the most appropriate products with most

vinaflame®

“Good Material for High Quality”

Great Tasting, Longest Lasting, Cleanest buring and 100% Nature .

A mission to provide an all-natural/chemical free and better performing alternative to the typical chemical -laden briquet:

It is our great pleasure to introduce our 100% All Natural Hardwood Charcoal to you. The Original Charcoal Company’s charcoal is made from private farms of Vietnam hardwoods, coppiced, not clear cut.
